MEN CONNECTED WITH CRIME HERE

Castor Brothers of Wilkens Murder Case Were in Sonoma Valley Friday of Last Week.

Arthur and Walter Castor the brothers whom the police have sought in connection with the Wilkens hold-up murder case in S. F. passed through Sonoma Valley Friday of last week enroute to Eureka where one brother was arrested.

They were first seen in the vicinity of the Springs by Joe Ryan where upon the deputy sheriff took up their trail and after overtaking the machine in which they were traveling with two women, took the number of their car. The deputy sheriff had no instructions to arrest them but was positive that they were the men whom police headquarters had had under surveillance. In order to make sure he wired the car license number to Sacramento and shortly received a reply that the number was in the name of Castor, San Francisco. From here the Castors drove to Eureka where Arthur Castor was arrested. He and his brother, who is a paroled prisoner, are alleged to know the details of the shocking murder of Mrs. Anna Wilkens, who was shot down, presumably by auto bandits, in the presence of her husband and children near San Francisco on Decoration day. Three hundred dollars, said by Wilkens to be the amount taken by the bandits is said to have been found on the Castors. The bandits car was also identified by a witness of the hold-up as one they rented. Confronted by the Castors at police headquarters, Wilkens failed to recognize them, although he had formerly worked in the same shop with them. These circumstances aroused suspicion, coupled with the fact that Wilkens and his wife had a divorce suit pending.

The domestic trouble between the Wilkens is accounted for by Sonoma Valley acquaintances, who maintain that Wilkens kept steady company with a Sonoma county girl, with whom he was infatuated. This woman is supposed to have been the motive for the crime.

SONOMA REALTY CONTINUES ACTIVE

Mrs. Mary Valente Allen, the San Francisco milliner and former Sonoma girl, will build a summer home here, the contract having been let to M. Y. Hansen of Fetters Springs.

Marcy & Peterson, the local plumbers, have the contract for plumbing on these new Sonoma residences.

Progress and Prosperity

By Our Campaign Manager
WAKE ROBIN LODGE CALLS

This column is for discriminating people only. The information imparted herein we deem as a genuine "find," a regular bonanza, that oft heard substantial straw to the drowsing, a choice bit, mind you, for the discriminating.

By discriminating we mean the type of person who likes a vacation with the family—away from everything that comes under the all-embracing title—Jazz.

All right. Now that we know each other, come closer—

I know a place—a place that is as near my own conception of paradise as I would dare imagine. A place that inspired a world renowned author, a writer of virile things—inspired him to almost poetical ulogies—and in the next breath to powerful writings. A spot where you will begin to fill your lungs and regret that you have been neglecting your cales-thenics. The climate is not excelled in all the world—the scenery is old

Dame Nature at her best—the location is of historical renown—and a discriminating owner has added just enough of the practical things (I scorn to enumerate other than electricity, a swimming pool, screened cottages and food for the gods). To make a previous statement of mine stand pat—it is as near paradise as I dare imagine.

Of course, you next say: "Who, where, why, and when," and because I never could keep a secret, I will tell you.

The author was none other than Jack London, and the bench upon which he sat as he wrote his well known "Sea Wolf" is still there—a few feet from the most fascinating of streams.

Where?—Just out of Glen Ellen, in the justly famous Valley of the Moon and is called Wake Robin Lodge.

Why?—Because of an unselfish love of Nature. And the when is now—the sooner the luckier.

SPENT WEEK END AT MENLO AND LA HONDA

Mr. and Mrs. Walter L. Murphy were the guests of the C. W. Smiths at their beautiful country estate in Menlo Park over the week end. While there the trip to La Honda over the scenic San Mateo county mountains was enjoyed, with a trout dinner at the Bonzani Lodge.

The Flying Needles having postponed its meeting, will now meet the coming Wednesday with Mrs. Erasmus and her mother, Mrs. Miller. The latter was out to the M.E. Ladies Aid Thursday, the first time since her illness.

Mrs. A. J. Martinson has received the sad news of the death of her sister in the old country. She left several children to mourn her.

SONOMA TRUSTEES TAKE STEPS ON PLAZA PROBLEM

At a special meeting of the Sonoma city trustees Wednesday night, the initial steps toward determining the title rights of the city of Sonoma to the Plaza were taken when the city Engineer was instructed to determine necessary steps to bring suit to quiet title proceedings. Public spirited men have offered to donate \$1000 toward the beautifying of the park as soon as the ownership of the 8 acre square is completely determined and under the control of the municipality and its trustees.

Trustee Dobbel in commenting on the plaza problem says he believes the entire amount to convert the square into a beautiful park will be forthcoming from public subscriptions and suggests that perhaps the various Parlor of Native Sons throughout California would interest themselves with Sonoma Parlor in the accomplishment.

Mr. Dobbel would have the upkeep of the park come from funds raised by a general business or special property tax. He believes that public sentiment would be favorable to tax-

NATIVE SONS ARE HOSTS ON FLAG DAY

Dispense Hospitality at Brilliant Affair in Honor of Day in Flag Adorned Club House.

The members of Sonoma Parlor No. 111, N. S. G. W., did themselves proud Wednesday night at the brilliant affair given in honor of Flag Day. The Women's Club house, decorated with the national flag and the Bear Flag or state emblem, was the scene of the reception given to the Native Daughters and friends of the local parlors.

Dancing to the up-to-date numbers of Madame Maerilla's augmented orchestra was enjoyed by the young people until a late hour and at midnight delicious refreshments were served by the Native Sons on the club house pergola, where tables had been set.

During the evening Prof. J. F. Prestwood gave an interesting talk on the history of the national and state flags and welcomed the guests in behalf of the Native Sons.

A vocal duet from Il Trovatore was rendered by Eugene Free and his mother, Madame Maerilla. Mr. Free's dancing made a wonderful hit.

The committee of arrangements on the 1922 Flag Day festivities is receiving deserved compliments on Wednesday evening's affair, which was splendidly conducted.

tion for special park purposes.

Other business transacted by the trustees Wednesday evening was the third reading of the ordinance on tearing up streets and side walks, and the granting of a permit to the Red Mens convention committee to erect electric light poles for the ornamental electric bell which will be erected as part of the handsome decorative effects for Sonoma's streets during the fraternal conclave in July.

LONDON RANCH VISITED BY THE SIERRA CLUB

A delegation of Sierra Club members came up to the London Ranch, Glen Ellen, the last week end and camped out there. They hiked to the points of interest, viewed again the last resting place of the beloved author and thoroughly realized his love for the wondrous Valley of the Moon. At night the customary campfire ceremonies were enjoyed, Mrs. Jack London joining the out-of-door enthusiasts for the evening.

Among the Sonoma Valley club members who participated were Mrs. Burlingame, Miss Warthorst and C. Peck.

On July 8th, Mrs. Burlingame will join the Sierra Club on the annual outing which this year is to take them to Mt. Whitney.

SPRECKELS BUILDING AT BURLINGAME

The Spreckels family is building a new residence on the grounds of the old Walter Martin place in Burlingame. A charming cottage has been completed, which they will occupy until the larger house is completed when the cottage will be converted into a garage.

The Spreckels place, Sobre Vista, here in Sonoma Valley, is being conducted by young Howard Spreckels, a son of Mr. and Mrs. Rudolph Spreckels.

CHICO RECORD PAYS DESERVED TRIBUTE

The higher courts of California have almost become a dynasty says the Chico Record, leading daily of the Sacramento Valley, editorially commenting on and supporting the candidacy of Judge Emmet Seawell of Santa Rosa. The Record says:

"Judge Seawell, for 20 years superior judge in Sonoma county, was in Chico this week. He is a candidate for the nomination as associate justice of the Supreme Court for the full term. Two are to be elected. Judge Seawell is a judge of the highest character, learning and experience. He occupies an independent position in his judicial aspirations. It has become well known that there exists in the higher courts of the state a sort of agreement or understanding that vacancies shall be filled by those who remain in office. The higher courts of California have become almost a dynasty and the independent jurist without the influence of the incumbents, ambitious for the honors of the bench, has been confronted with an almost impossible situation. Judge Seawell is attempting to surmount it. He has a wide reputation over the state for his common sense viewpoint of justice. He has a calm, judicial mind and untarnished character. The voters will be doing the state a benefit if they place him on the Supreme bench."

HOW TO BE HAPPY

Mrs. Leon M. Hattenbach, who edits The Merchants Index, at Denver, for the Colorado Retail Merchants Association, prints this on the front cover page:

"To be happy, keep busy, this is a tried and true panacea and one that really works when all others fail. Fortunately, most people love their work and naturally progress and develop, those who are not happy in their chosen line had better quit that field of action as speedily as possible and find a more congenial occupation. Nature decrees that everything must move to be perfect and normal, this decree applies also to man and according to his busy-ness is he happy. The drone is killed by the swarm. The plant that stops growing dies. Sluggish water stagnates, so man, the greatest work of nature, must move constantly to grow, to expand and to develop. There is but one way to be happy and that is keep busy."

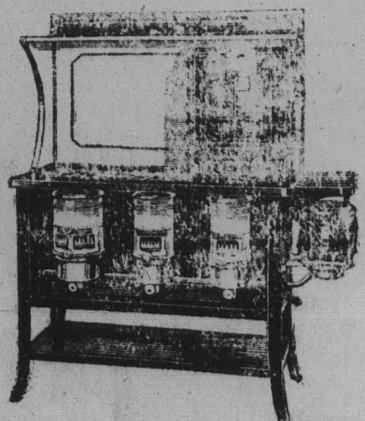

Just a little idea of what the U. S. Government is doing for disabled ex-service men is seen in the \$1,500,000 sanitarium to be created at Livermore for tubercular patients. It is noble work and calls for praise for Americans want everything possible done for those who served this country and were incapacitated while doing their patriotic duty. The average citizen has a heart and conscience when it comes to worthy public work but rebels at footing bills for experiment work and palatial homes for the fallen. The real fall guy is the poor taxpayer.

What is our community's greatest need? Don't all speak at once. Plaza beautification.

THE LAND IS "DRY," NOT SO THE WATER

Selling liquor on United States ships flying the American flag to travelers who refuse to be reformed is thoroughly sensible and rational according to our point of view, but that this government, with its prohibition law is inconsistent and discriminating there is no question. If it's good business and legal for the government to sell liquor on its ships to meet competition on the sea, why have business concerns been confiscated and ruined for trafficking in wines, beers and stronger beverages on land? The whole miserable, impracticable mess of reformers and their prohibition laws will sooner or later be repudiated by this great nation. The fiasco cannot and must not continue "as is."

MODERATION CONTRASTED WITH INTOLERANCE

He eats a simple meal, with a pint of wine, diluted from home-brew. For 83 years this man has not known faintness, unreality or fear.

Thus does Norman Hapgood describe a man "who knows how to live."

How many prohibitionists, with their insane zeal to interfere in the personal habits of others, can do as well? But they would dash this pint of wine from this fine old man's hand. Can anything more senseless be imagined?

That, however, is the spirit which was responsible for the Eighteenth Amendment and also for that vicious farce, the Volstead Act.

When, oh when, will the nation be delivered from such pests, who, knowing not how to live themselves, seek to impose on others the gloomy narrowness of their own outlook and the hypocritical bigotry of their own prison-house—Sacramento Bee.

Increasing state fish and game license fees won't increase either trout, quail or efficiency. The plan may result in increase of salaries. It is planned to raise fishing licenses from \$1 to \$3 per year. Will the cost of fish and fishing never come down?

The radio wedding broadcasted from Santa Rosa has attracted widespread attention. Here's hoping the air wave will be a permanent wave.

Did you ever stop to think that all lovers are shriners?

Flying does not pay. A San Francisco aviator has just filed a petition in voluntary bankruptcy. He owes \$23,000 and has assets of \$50. Oh, well, other aviators have been broke worse than that.

ANNIE ACQUISTAPACE AND SON JIMMIE RETURN HOME

Annie Acquistapace and son Jimmie of Agua Caliente, who have been in Italy for the past seven months visiting relatives in Lombardy, returned home Thursday. They are both looking well and enjoyed their visit in the old country very much although noticing a great contrast in the manner of living between there and here. They went over to Italy on the Fugazi line, landing at Naples and saw the great volcano, Vesuvius, smoking, as they entered the harbor. They journeyed to the little town where Mrs. Acquistapace's mother, sisters and brothers reside at Delebrio, in the north of Italy, not far from the Austrian border. They found a warm welcome awaiting them. The people are extremely religious, going to Mass every day and twice on Sundays. Week days they journey to the fields where they labor from five o'clock until dark, tilling the soil with oxen and with the family milk cows. Much fertilizer is necessary to get a crop and they produce corn and potatoes for the most part. Polenta is the principal food with excellent white bread and a little wine which each family makes for its own use. All strong liquor is in the hands of the government. Cooking is done in huge fire places, whose smoke the American visitors found rather annoying. Meat is rarely prepared for food, although once in a while horse meat is cooked and relished. All the butter made is sold, but cheese is made and eaten by the families producing milk. The stone houses are in darkness at night save for the fire-places and the flicker of a quaint lamp whose flame made wick is saturated with walnut oil.

Before returning to this country the bright pupil of Flowery School made the ascent of the Alps and had the unique experience of being pulled up the steep trails by a mule to whose tail he clung and was safely conveyed up the famous mountains near Garola. He saw the cannon on the Alps placed there as fortifications during the war.

Mrs. Acquistapace and Jimmy took in Paris on their way home and Jimmy declares there are flappers there the same as here with bobbed hair and very short dresses—some class, says Jimmy of the French girls with a knowing look.

The travelers boarded a French liner at Havre and had a very pleasant voyage home, meeting a Santa Rosa lady of Italian birth and other congenial friends aboard.

While speaking highly of their trip and being thoroughly satisfied with their visit in the old country, both mother and son say there is no place like America and their home in the Valley of the Moon.

PROGRESS ON NEW HIGHWAY

The work of grading the cut through from the Rincon school corner to Melitta is in progress. A force of men has been at work on the right of way for a week past and are making good progress.

Another force of men is at work in the Grace Bros. quarry blasting out rock for use in the crusher and setting up the crusher preparatory to crushing rock for use on the highway between Santa Rosa and Belknap on the Schellville-Santa Rosa highway.

Another force of men has been getting the brush cut and making a roadway from the quarry to the highway over which the crushed rock will be hauled for use on the new piece of work and it is expected that by July 1 rock will be laid at the rate of 300 yards a day.

The work of grading from the city limits and widening the roadway to the Rincon Valley bridge east of the Stone house is progressing rapidly, and will soon be ready for the crushed rock. It is expected this will be the first stretch of roadway constructed when the contractors begin laying the asphalt macadam about July 1.

At present the roadway east of Santa Rosa is closed to all traffic and it will remain closed until the macadam is laid to the cut-off into Bennett Valley at this end of the Rincon Valley. All traffic to and from the Valley is being detoured via Sonoma avenue over this branch road into Bennett Valley.

Sixteen more highway deeds were filed in the recorder's office Monday by Supervisor Fred Lowell, for rights of way for the Schellville-Santa Rosa highway.

The deeds were assigned to the supervisor by John Ashton, Frank O. Davison, John Spade, Erhardt Steiger, M. Lever, Hugh Gillis, Eliza Fairbairn, L. Ducret, E. A. Herman, Florence J. Ross, Eugene W. Levy, Fred Schumacher, Jessie E. Pool, Regina Isaacs, L. E. Alexander, Richard Faulkner and William D. Mitz.

ECHO OF SWIFT'S BURIED GOLD FROM GLENN COUNTY

An echo of the oft repeated story of Granville P. Swift's buried gold comes from Glenn county, the place from which the pioneer Californian is supposed to have brought a fabulous amount of gold dust to his Sonoma Valley ranch in 1849 and again secreted it here. His old adobe near Orland is to be restored by the Women's Club of Glenn county and the Daughters of the American Revolution.

Around this old landmark clings the story of hidden treasure, a portion of which is believed to be cached there just as gold is still thought to be on the Sonoma place where Swift lived in 1849-50. Some years ago there was great excitement when a man named Lehrke residing on the old Rixford ranch, (formerly Swift's home) gave out the story that he had unearthed the long sought treasure concealed by Captain Granville P. Swift. The story proved to be a myth.

Swift came to Sonoma Valley with ox teams after making a fortune with his Indians from gold diggings on the Feather River. He is said to have buried this gold on the Sonoma Valley property now owned by C. Scanzini and the Melville Schweitzers. The Schweitzer home of stone was the original palatial mansion of Swift and bears his name and the date of erection, 1850, carved in the stone above the door. Swift built this mansion for his bride, the daughter of a Sonoma farmer, who refused, however, to play lady in the grand home and is said to have caused Swift much annoyance because she persisted in wearing her prints and continuing her girlhood activities as dairymaid.

Periodically in Sonoma Valley tales of the hidden gold stir adventure seekers to search for Swift's reputed wealth. He was supposed to have amassed \$600,000 and left some of it behind in Glenn county near the quaint landmark there, now to be preserved by lovers of California history.

Swift was found dead in 1875 in the Napa Valley ranch he owned at that time. Some thought he had not fallen from his mule, but had been struck on the head and killed for his money.

Captain Swift was a leading spirit of the Bear Flag revolution and at one time served under Fremont.

TRUSTEE CASSIDY ATTENDED MEETING

Trustees of high schools in Sonoma county, who met at the Chamber of Commerce headquarters in Santa Rosa last Saturday night to discuss budgets for the coming fiscal year, went on record as favoring retention of the present county high school tax rate amounting to \$85 per pupil. The chairman of each high school board was named on an executive committee to confer with the supervisors during their meeting, held this week, when tax rates for the fiscal year 1922-1923 were fixed and budgets arranged.

In favoring the present high school tax rates, the trustees pointed out that a change would only affect the means of raising taxes and not the amount that would eventually be asked of the taxpayer.

Lowering the county tax rate would necessitate a greater special district tax to make up the balance of funds necessary to maintain the high school it was stated.

Members of the executive committee are Hilliard, Comstock, Santa Rosa; D. D. Sinclair, Sebastopol; G. C. Alexander, Healdsburg; G. H. Cassidy, Sonoma; J. E. Metzger, Cloverdale, and the chairmen of the Petaluma and Geyserville boards.

Miss A. Burt, talented member of the High School faculty, has resigned to teach in Sacramento next term.

INDIAN BURIES \$1,650 IN '49 MINING TOWN

During the Days of '49 celebration a demonstration of mining methods of the mining methods of the early days was conducted daily at the Hangtown exhibit arranged by the El Dorado Chamber of Commerce. The other day an aged Indian from Placerville visited the site of the exhibit and dug up \$1,650 in real money.

The story is told by J. N. Reed, in charge of the wrecking of the camp for the Chamber of Commerce. It appears that the Indian and his wife had a camp within the Hangtown walls. During the celebration the man got hold of some liquor and landed in the Sacramento city jail, where he has been held for some days.

Upon his release he went at once for the mining town. Getting by the guards at the gate, he made haste to the site of the Hangtown buildings and began digging in the sand. His efforts revealed a buckskin pouch in which were the savings of his lifetime.

Unwilling to trust his money to bankers, the old Indian carried it with him and buried it beneath his bed.—Sacramento Bee.

TOCCINO ESTATE IS QUITE VALUABLE

Teresi Toccino, sister of the late Giovanni Toccino, former chef at the resort of Paul Vannucchi gave a bond of \$9500 as administratrix of the estate which is quite valuable.

Toccino was an industrious and faithful employee of the Vannucchis for 14 years. Worry over ill health caused him to take poison in a fit of despondency several weeks ago and he died following the rash act.

James and Ray Gottenberg and E. Coates were among the Shriners who had a wonderful time the first of the week.

EGGS AND OLIVES MEXICAN STYLE

This dish makes an almost perfectly balanced diet, for eggs, green olives and rice are rich in protein, fat, and carbohydrates respectively, and each is high in caloric value. It is a new dish—a nourishing food as well as a delicacy.

Six hard boiled eggs (halved); one cup Spanish green olives (quartered); 2 cups boiled rice; 3 cups Creole sauce. Arrange rice in bottom of a baking dish. Cut eggs in halves lengthwise and lay on rice. Add olives to sauce. Pour over eggs. Bake in moderate oven 15 minutes and serve at once. This is sufficient for six helpings.

BIG POWER for BIG AUTOMOBILES

You selected your car carefully for quality. Select your motor fuel the same way. It's unfair to feed a good car an inferior gasoline.

"Red Crown" answers completely the automotive engineer's demand for a motor fuel that will vaporize rapidly and uniformly in the carburetor and explode cleanly in the cylinders. All the heat units it contains are converted into power at the drive wheels.

"Red Crown" is uniform in quality—every gallon is the same, wherever and whenever you buy it.

Fill at the Red Crown sign—at Service Stations, at garages, or other dealers.

BRIDGE ACROSS STRAITS NEAR VALLEJO PLANNED

According to publication of a story in Vallejo, plans for the construction of a \$2,000,000 bridge to span the Carquinez straits are well advanced, preliminary engineering having been completed soundings take and the financing of the project arranged.

The Development Company of California is declared to be backing the project. According to Dr. Otto Freyermuth, president of the corporation, the application for the right to bridge the straits has been filed.

The bridge will be built from Dillon's Point, near Glenn Cove, on the Vallejo side, to a point midway between Crockett and Port Costa on the Contra Costa county side of the straits.

According to the plans the bridge is not to be used for railroad transportation, but for auto transportation and other vehicles. It is to be a toll bridge until such time as the project is paid for. Dr. Freyermuth believes the project will have been paid for within 30 years, when it is proposed to turn the bridge over to the county.

Charles Evans Fowler, now constructing a similar bridge in New York, is the engineer secured for the project. Dr. L. S. Staughton, another engineer of New York, is associated with Fowler in the construction work.

ROAD CONDEMNATION SUIT

District Attorney G. W. Hoyle, acting with authority from the Board of Supervisors, has filed suit in the Superior Court to condemn a portion of the Theresa Bell property near Glen Ellen, which is needed as a right of way for the Schellville-Santa Rosa state highway.

The court is asked to fix a proper valuation on the piece of land. Condemnation proceedings were favored by the supervisors when it was learned that owners of the property had declined to set a price.

LAST OF DONNER PARTY IS VISITING HERE

Mrs. Bixon, the only surviving member of the ill-fated Donner party, is visiting at the home of her daughter, Mrs. O. D. Elgin, in Bennett Valley. Both Mrs. Bixon and her daughter witnessed the '49ers parade in Sacramento and Mrs. Bixon was the recipient of marked attention by many old timers. She was a member of the McCracken family, one of the pioneer Sonoma Valley families.
